THIS IS A NEW CONTRACT.

---

SITE LICENSE ADMINISTERED THROUGH:
    SHAWNA STEWART    - K THRU 12 EDUCATION        (801) 538-7783
    JERRY FULLMER     - HIGHER EDUCATION           (801) 321-7108

THIS IS A MULTIPLE AWARD CONTRACT.  SEE ALSO PRICING AND DELIVERY ON THE FOLLOWING
CONTRACTS: MA898 SOFTWARE HOUSE INTERNATIONAL; MA903 COMPUCOM.

This contract covers only those items listed in the price schedule.  It is the responsibility of the agency to ensure
that other items purchased are invoiced separately.  State agencies will place orders directly with the vendor
(creating a PG in Finet) and make payments for the same on a PV referencing the original PG.  Agencies will
return to the vendor any invoice which reflects incorrect pricing.

## **WARRANTY & YEAR 2000 COMPATIBILITY**

ASAP Software Express takes exception to the State of Utah's standard Warranty including Year 2000 statement. Please review ASAP's Y2K statement below.  User entities are strongly encouraged to review the potential risks associated with purchases from this contract.

ASAP Software accepts the State of Utah Standard Terms and Conditions, with one exception.  ASAP Software cannot warrant current or future Corel products for Year 2000 compatibility.  However, we want you to be aware of how important the Year 2000 issue is for us, so that you may feel confident in awarding this contract to ASAP Software.  Please see below for our Y2K position.

As one of the leading software resellers in the nation, assuring a smooth transition for our customers is a high-priority issue for us.

Because of the nature of our business, there are actually two levels to be considered.  The first level is our internal systems.

We are in the process of making a completely transparent transition of ASAP's order management system to Year 2000 compliance.  In fact, we have already updated our warehouse databases, and are in the process of revising our other systems, such as TRACKER.  These revisions are being done in order of priority.  Our target date for completion of all phases is December of 1998.  Again, these projects will be completed with no noticeable change in the way you do business with us.

The second level to be considered is the status of the more than 40,000 products you purchase from ASAP Software Express.  ASAP does not write the code, nor produce the applications you purchase from us.  The individual publishers with whom we work provide these functions.  We have been monitoring their progress very closely, and can report that most of the latest versions of products from our major publishers already meet Year 2000 compliance.  In the rare case of a product that doesn't yet meet these standards, we will continue to communicate with that publisher and keep you informed of their progress.

If you would like more specific information regarding a particular publisher, your ASAP Account Manager can help you find it.  Or, you can refer to the Year 2000 section of TechTalk on our Web site, at http://www.asapsoftware.com/softsupp/y2k.html.  There you will find links to all of the major software publishers. For the Corel products included on this Invitation to Bid, we would be happy to keep an updated list for you of those products which Corel certifies as Y2K compliant.

At ASAP Software Express, we are dedicated to making sure your organization is well prepared for the challenges of the Year 2000 changeover.  We appreciate your business, and look forward to working with you in fulfillment of this contract.
